REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to the following:

3. (currently amended): ~~A~~The diazonium salt according to claim 1, and represented by the following general formula (3):

General formula (3)

wherein R¹ and R² each independently represents an alkyl group, an aryl group, an acyl group, an alkoxycarbonyl group or a carbamoyl group, and R¹ and R² may be linked each other to form a ring; R¹⁰ and R¹¹ each independently represents a hydrogen atom, a halogen atom, an alkyl group, an aryl group, an alkoxy group, an aryloxy group, an alkylthio group, an arylthio group, an alkylsulfonyl group or an arylsulfonyl group; R¹² represents a hydrogen atom, an alkyl group or an aryl group; and X⁻ represents an anion.

Art Unit: 1752

- 4. (currently amended):** A thermal recording material comprising, on a support, a thermal recording layer containing a coupler and a diazonium salt represented by the following general formula (3):

General formula (3)

wherein R¹ and R² each independently represents an alkyl group, an aryl group, an acyl group, an alkoxy carbonyl group or a carbamoyl group, and R¹ and R² may be linked each other to form a ring; R¹⁰ and R¹¹ each independently represents a hydrogen atom, a halogen atom, an alkyl group, an aryl group, an alkoxy group, an aryloxy group, an alkylthio group, an arylthio group, an alkylsulfonyl group or an arylsulfonyl group; R¹² represents a hydrogen atom, an alkyl group or an aryl group; and X⁻ represents an anion(1):

Applicants have narrowed the claims to the diazonium compound of formula (3) and its use in a thermal recording material. The closest prior art of record fails to disclose the recited diazonium compound. WALKOW et al discloses a compound of cancelled diazonium compound (1). However lacks the now recited diazonium compound (3) and the thermal recording material.

Based on the amendment to the claims and the lack of prior art which anticipates or renders obvious the claimed invention, claims 3-5, 6-15 and 20 are seen as allowable and passed to issue.

Art Unit: 1752

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
